## Professional Summary

---

An experienced and highly motivated frontend engineer with extensive industry experience obtained from developing web applications for multiple clients.

## Education

---

**Frontend Developer Bootcamp**  
Frontend Simplified

Jan 2021 – April 2021

## Experience

---

**Frontend Simplified**  
Frontend Software Engineer Apprenticeship

June 2021 - Current

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface through the use of animations (AOS library), carousels (React-Slick), and transitions.
- Processed API requests to dynamically represent data from a cloud server and represented it through pagination (Bootstrap and Lodash library), skeleton loading states and dynamic routing
- Incorporated Git version control and GitHub to work and collaborate in a virtual and collaborative team environment.

**Freelance Frontend Developer**  
Self Employed

Dec 2021 - Current

- Delivered 5 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and react best practices
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

## Projects

---

### Portfolio | Website | GitHub

- Launched an online portfolio website to showcase projects and experiences, containing all relevant links and source code.

### Library | website | GitHub

- Designed, developed and hosted a semantic book store using HTML, CSS and React. Incorporated skeleton loading states to improve page loading speed and enhance user experience
